Fabio Cocozza

Hi, I'm a 23 years old designer from Italy. At the moment I'm studiny UX/UI design at Start2Impact. In the recent years I studied the basics of Web Design and now I want to go deep in every aspect of the user experience and user interface. Create and improve the design means for me make the product acquire even more value.

Projects I worked on

Start2Impact
HTML&CSS project

I made this project to progress in the UX/UI Design course on Start2Impact. It's a personal website/portfolio where I can publish all my experiences and my projects.

Project rating: 500/500.

Start2Impact
Graphic project

I made this project to progress in the UX/UI Design course on Start2Impact. I created a digital identity for a travel agency, creating agency logo, social graphics, slogans...

Project rating: 380/500.

Start2Impact
Copywriting project

I wrote a blog post about one of the 17 ONU goals. This project have been made to progress in the UX/UI Design course on Start2Impact.

Project rating: 480/500.
